

Dear Mrs Warren

We're proud to welcome you to HomeCare Repair Australia, a new private works division.

Our parent company, founded in 1992 began in residential and commercial property development. Since then we've built proven and trusted processes, and in 2001, shifted focus to concentrate solely on insurance repairs, where today have established ourselves as a national builder of choice for the insurance industry.

Twenty-five years later, capitalising on our success, we've expanded and launched our private works division under the HomeCare Repair Australia banner, to offer our customers domestic services, light commercial and more across Australia. However, our motivation remains the same: to deliver a standard of excellent to our clients, ensuring their projects are delivered safely, on time and on budget.

To find out more about our services, click below and head over to our website or give us a call on 1800 155 166, we'd love to hear from you.

Kind regards,
The HomeCare Repair Australia team.

We'll take care of that
